Project Sponsor	Project Name	County	DNR Reg	Regional Contact	Grant Amt (State Share)	Local Share	Project Desc
ADAMS COUNTY	Adams AIS Specialist	Adams	WC	Buzz Sorge, 715-839-3794	\$69,000.00	\$69,000.00	Adams County proposes to fund a full-time Aquatic Invasive Species Specialist position within its Land and Water Conservation Dept. for the purpose of providing educational and technical assistance to the public and lake organizations seeking to prevent and control AIS infestations in Adams County Lakes. Major project elements to include: 1) Establishment of Clean Boats, Clean Waters program on 22 lakes, 2) Establishment of AIS monitoring program for 22 lakes, 3) Providing assistance in implementation of AIS education and control elements of individual lake management plans.
BARRON COUNTY	Barron County Aquatic Invasive Species Project	Barron	NO	Pamela Toshner, 715-635-4073	\$8,315.00	\$8,315.00	<p>Barron Co. Soil & Water Conservation Dept. in partnership with several lake associations and districts is sponsoring a one-year countywide AIS project and summer internship to do the following activities: Eurasian watermilfoil and purple loosestrife monitoring and management; other AIS (e.g. zebra mussel, rusty crayfish, and curly-leaf pondweed) monitoring; and a Clean Boats Clean Water watercraft inspection program.</p> <p>If a new AIS infestation is found, the Intern and County will work with the respective lake group to develop a rapid response plan and/or an AIS plan that meets the requirements of NR 198.43.</p> <p>Project deliverables include:</p> <ol style="list-style-type: none"> 1. A project report/assessment of education and outreach activities, monitoring activities, and data collected including a description of the extent of AIS in Barron Co., detail on control measures, and a strategy for future management, as well as the information in 2-6. 2. Maps of purple loosestrife and Eurasian watermilfoil locations and densities. 3. Prioritized list of boat landings for watercraft inspection and explanation of how priorities were developed. 4. Clean Boats Clean Waters data collection summary. Data collected must include those data required as part of the CBCW program and must be entered in the statewide database. 5. Purple loosestrife project summary. 6. Examples of educational/outreach materials developed. <p>Special Conditions</p> <ol style="list-style-type: none"> 1. Any new identification of an aquatic invasive species must be immediately reported to the Department. 2. The Eurasian watermilfoil monitoring will be presence/absence monitoring. The Department may provide standardized methods for AIS monitoring. 3. Data, records, and reports, including GIS-based maps and digital images, must be submitted to the Department in a format specified by the regional Lake Coordinator. <p>A draft report/deliverables will be submitted to the regional Lake Coordinator for review before finalization.</p>

BAYFIELD COUNTY	Bayfield Co. Aquatic Invasive Species Education, Prevention & Planning	Bayfield	NO	Pamela Toshner, 715-635-4073	\$75,000.00	\$75,000.00	<p>Bayfield County in cooperation with the ABDI Land Conservation Dept. is sponsoring a two-year countywide AIS project and position to do the following activities: create a network to support and streamline AIS prevention and control efforts; document AIS locations; provide AIS information and education outreach; obtain and manage funding to support evolving water quality issues. The final product of this project includes a countywide strategic plan that integrates the goals, objectives, and activities of interested parties into a manageable approach to deal with AIS.</p> <p>If a new AIS infestation is found, the AIS Coordinator and County may work with the respective lake group to develop a rapid response plan and/or an AIS plan that meets the requirements of NR 198.43.</p> <p>Project deliverables include:</p> <ol style="list-style-type: none"> 1. A strategic plan to monitor and prevent new AIS infestations and prevent the spread of existing infestations. The plan will list planning participants, comments/input received, meetings and attendance, and a description for how success will be measured (i.e. measurable goals). 2. A project report/assessment of education/outreach activities (including participation in the Cooperative Weed Management Area), monitoring activities, data collected and examples of materials developed. The report will include a description of the extent of AIS in Bayfield County, as well as the information in 2-9. 3. GIS maps of current AIS infestations. 4. Boat landing and signage inventory. 5. Clean Boats Clean Waters, AIS Citizen Lake Monitoring, Adopt-a-Landing, and Shoreline Watch Aquatic Team trainings summaries that include number of participants. 6. County-wide network/resource list, lake contacts, monitors, volunteers, etc. 7. Summary and examples of press releases, newsletter articles, and other media contacts. <p>A draft report/deliverables should be submitted to the regional Lake Coordinator for review before finalization.</p>
BIG ROCHE-A-CRI LAKE DISTRICT	Roche-A-Cri Invasive Species Signs	Adams	WC	Buzz Sorge, 715-839-3794	\$2,650.00	\$2,650.00	<p>The Big Roche-A-Cri Lake Protection and Rehabilitation District proposes to install signs promoting safeguards against the spread of aquatic invasive species at the two public boat launches on Big Roche-A-Cri Lake in Adams County. Major project elements to include: 1) sign construction and installation, 2) articles in newsletter and on web site, 3) presentation at annual meeting, 4) survey of District membership, 5) final report.</p>

BONE LAKE MANAGEMENT DISTRICT	Bone Lake AIS Prevention Project	Polk	NO	Pamela Toshner, 715- 635-4073	\$14,372.00	\$14,372.00	<p>The Bone Lake Protection and Rehabilitation District will conduct an AIS Prevention and Education Program on Bone Lake. This project includes five main components of a comprehensive AIS program; 1. Education to lake users, 2. Clean Boats, Clean Waters watercraft inspection and boater education program, 3. Lake monitoring, 4. Contingency plan per NR 198.43 if a new invasive species is found, and 5. Funding. Specific project activities include: 600 AIS information mailings; approximately 200 CBCW volunteer hours, approximately 240 self-help AIS monitoring volunteer hours; installation of 5 AIS signs; and annual technical reports and APM Plan updates.</p> <p>Upon completion of this project, the sponsor will provide the State with:</p> <ul style="list-style-type: none"> * a comprehensive report listing the findings of the aquatic plant inspections and a summary of all project activities, * data and information, including maps and digital images, acquired as part of the project shall be reported to the Department in the format specified by the regional Lake Coordinator. <p>Special conditions for this project:</p> <ul style="list-style-type: none"> * Draft public surveys must be reviewed and approved by the Department before being initiated. * The aquatic plant "inspections" and monitoring activity should be conducted utilizing methodology approved by the Department. * The project sponsor shall immediately contact the proper DNR authorities in the event of the discovery of a new Aquatic Invasive Species infestation. * All information collected during the watercraft inspection and boater education portion of the project will be entered into the Clean Boats Clean Waters database by the sponsor and reported as such in the final report.

BURNETT COUNTY LAKES & RIVERS ASSOCIATION	Lake Launch Monitoring & AIS Education - 2 Seasons	Burnett	NO	Pamela Toshner, 715- 635-4073	\$41,570.00	\$41,570.00	<p>Burnett County Lakes & Rivers Association is sponsoring a two-year boat launch surveillance, watercraft inspection, and public education project on five lakes (Mud Hen, Lake Twenty Six, Big Wood, Yellow, and Johnson Lakes). This is a two-year pilot project in Wisconsin and the only of its kind being funded with AIS grant dollars.</p> <p>The project includes: monitoring equipment installed at seven landings that will capture the frequency of usage and identify high-use time periods; a process for capturing and reporting violations of the Illegal to Launch law; development of angler education materials that will be distributed to local bait shops; implementation of garbage receptacles at landings; and a Clean Boats Clean Waters workshop.</p> <p>Specifically the deliverables associated with this project include:</p> <ol style="list-style-type: none"> 1. A project report summarizing education and outreach and monitoring activities and surveillance/landing activity. 2. Clean Boats Clean Waters data collection summary. Data collected must include those data required as part of the CBCW program and must be entered in the statewide database to be eligible for grant reimbursement. <p>Special Conditions</p> <ol style="list-style-type: none"> 1. Any new identification of an aquatic invasive species must be immediately reported to the Department. 2. Data, records, and reports, including GIS-based maps and digital images, must be submitted to the Department in a format specified by the regional Lake Coordinator. 3. All necessary permits and permissions must be acquired before implementation any equipment or signage at the boat landings.

CITY OF SHELL LAKE	Shell Lake Invasive Species	Washburn	NO	Pamela Toshner, 715- 635-4073	\$12,950.00	\$14,450.00	<p>The City of Shell Lake is sponsoring a project on Shell and Round Lakes, Washburn County, to do the following activities: educate the public; inspect watercrafts (approximately 1400 inspection hours); monitor for Eurasian watermilfoil, zebra mussels, and spiny water fleas; inventory purple loosestrife within the corporate city limits and develop a management plan.</p> <p>Project deliverables include:</p> <ol style="list-style-type: none"> 1. A project summary of education & outreach activities. 2. Clean Boats Clean Waters data collection summary. Data collected must include those data required as part of the CBCW program and must be entered in the statewide database. 3. Point-intercept aquatic plant survey record and map, which includes native species present, abundance, and presence/absence recordings for AIS. Survey data must be entered on Aquatic Plant Management Guidance spreadsheets and electronically submitted to the Department. 4. Eight zebra mussel veliger and spiny water flea samples submitted to the Department for analyses. 5. Shoreline survey record and summary of information collected. 6. Purple loosestrife project summary and comprehensive management plan. <p>Special Conditions</p> <ol style="list-style-type: none"> 1. Any new identification of an aquatic invasive species must be immediately reported to the Department. 2. Data, records, and reports, including GIS-based maps and digital images, must be submitted to the Department in a format specified by the regional Lake Coordinator. <p>A draft report/deliverables must be submitted to the regional Lake Coordinator for review before finalization.</p>

CROOKED LAKES AREA LAKES PRTCTN & REHAB DIST	Crooked Lake APM Plan Project	Oconto	NE	Richard Sachs, 920-662-5187	\$5,157.00	\$5,157.00	<p>The Crooked Lake Protection and Rehabilitation District proposes to develop an Aquatic Plant Management (APM) Plan in 2006, which will focus on native plant protection and prevention, and control of aquatic invasive species (AIS). The project elements and deliverables are specified in the Crooked Lake Protection and Rehabilitation District Aquatic Invasive Species Control Grant application, dated January 16, 2006. The project includes conducting aquatic plant surveys on Crooked, Bass and Gilkey Lakes; determining the extent, distribution and density of AIS, including curly-leaf pondweed, Eurasian water-milfoil and purple loosestrife; developing an herbarium of pressed plants for use by Crooked Lake Protection and Rehabilitation District members; preparing and developing an APM Plan consistent with DNR guidelines, including an AIS prevention and control plan; creating geographic information system produced maps of the plant community; educating the lake users of native plant protection and AIS prevention and control measures; and implementing the "Clean Boats, Clean Waters" watercraft inspection program. Watercraft inspection records will be entered into the State's online Watercraft Inspection Database. The final report will include the Crooked Lake Protection and Rehabilitation District Aquatic Plant Management Plan that conforms to DNR's Aquatic Plant Management Guidance.</p> <p>If consultant is to provide the final report, it is recommended the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.</p>

MANITOWOC PUBLIC SCHOOL DISTRICT	Manitowoc Public School District AIS Educational Project	Manitowoc	NE	Richard Sachs, 920-662-5187	\$74,298.72	\$74,298.72	<p>The Manitowoc Public School Dist proposes to develop an aquatic invasive species (AIS) education project in conjunction with the Wisconsin Maritime Museum (WMM) and Woodland Dunes Nature Center. The project elements & deliverables are specified in Manitowoc Public School District's AIS Control Grant Application, dated 7.26.06. The project includes providing AIS educational programming linked to public school sixth-grade science curriculum to all sixth grade classes in school year 2007/2008; creating permanent displays at three areas of the Rahr Memorial School Forest; creating one or more AIS informational exhibits at the WMM and developing a funding strategy to sustain the program beyond the grant period. Designs of the displays and exhibits created for this project will be submitted to DNR for approval prior to construction, & copies of the designs will be provided to DNR as part of the project's deliverables. Representatives from the Manitowoc Public School District, WMM and Woodland Dunes Nature Center will meet with a DNR project overview team at the initiation of the project to review its implementation strategy. Quarterly progress reports & a final report summarizing the project will be provided to DNR.</p> <p>If consultant is to provide the final report, it is recommended that the Grantee provide the DNR AIS Coord with a draft for comment on report adequacy prior to making final payment to the consultant. DNR will be provided both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request. If watercraft inspection is conducted as part of the project then those records will be entered into the State's online Watercraft Inspection Database. Any publications produced as part of the project will incorporate the "Stop Aquatic Hitchhikers!" logo brand.</p>

MT. MORRIS LAKES MANAGEMENT DISTRICT	Mt. Morris Lk AIS Control & Prevention Project	Waushara	NE	Richard Sachs, 920-662-5187	\$72,426.25	\$72,426.25	<p>The Mount Morris Lake Management District proposes to control curly-leaf pondweed (CLP) and Eurasian water-milfoil (EWM) through chemical treatment, mechanical and hand removal, and preventative measures in Mount Morris Lake during the period 2006 - 2011. The project elements and deliverables are specified in Mount Morris Lake Management District's Aquatic Invasive Species Grant application, dated January 22, 2006. The project includes monitoring the extent and density of CLP and EWM annually through pre-treatment and post-treatment surveys of known infested areas, and monitoring other lake areas for the presence of aquatic invasive species (AIS); treating CLP infested areas with an aquatic herbicide; conducting hand-removal of CLP and EWM by divers; mechanically harvesting CLP; conducting water quality monitoring; conducting an aquatic plant survey using the point-intercept method and updating the Mount Morris Lake Aquatic Plant Management Plan; and conducting volunteer activities to prevent further AIS infestations, including conducting watercraft inspections. Reimbursement for mechanical harvesting is limited to only CLP infested areas for the purpose of minimizing turion production; harvesting for purposes of nuisance relief or navigation lanes will not be reimbursed. Watercraft inspection records will be entered into the State's online Watercraft Inspection Database. Annual progress reports and a final report summarizing the five-year project will be provided to DNR.</p> <p>If consultant is to provide the final report, it is recommended the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.</p>

TOWN OF SWISS	Lake Twenty Six AIS Project	Burnett	NO	Pamela Toshner, 715- 635-4073	\$3,500.00	\$3,500.00	<p>The Town of Swiss is sponsoring a 1-yr. aquatic invasive species (AIS) grant on behalf of Lake 26. The project includes four components, in-lake monitoring for AIS, installation of a large permanent sign at the Lake 26 public access point, a watercraft inspection program at the landing in accordance with the Wisconsin "Clean Boats, Clean Waters" program, and education of lake residents. The project is based on 400 hours of in-kind volunteer hours including approx. 200 hours of actual watercraft inspection and additional time for volunteer in-lake monitoring, sign design, construction and installation, and volunteer project supervision & coordination. An additional 244 hours or more of watercraft inspection is provided for through incentives and available stipends built into the project.</p> <p>Upon completion of this project, the sponsor will provide the state with a comprehensive report including all of the following:</p> <ul style="list-style-type: none"> * Documentation of all donated time and services related to the administration of this grant. * A watercraft inspection summary including total time spent and number of people reached. * A summary of CBCW survey results. * In-lake monitoring results. * Any AIS related materials generated or paid for by this grant. <p>*In addition, all "Clean Boats, Clean Waters" program activities including watercraft inspection hours, boat landing survey results, and trained citizen inspectors will be reported in accordance with CBCW guidelines by this projects completion date.</p> <p>Special conditions for this project: The project sponsor shall immediately contact proper DNR authorities in the event of a new aquatic invasive species infestation. The project sponsor will coordinate any treatment or other management response to an aquatic invasive species infestation with this person.</p>

TOWN OF TOWNSEND	Townsend Flowage APM Plan Development	Oconto	NE	Richard Sachs, 920-662-5187	\$7,383.96	\$7,383.95	<p>The Town of Townsend, on behalf of the Townsend Flowage Association, proposes to develop an Aquatic Plant Management (APM) Plan in 2006, which will focus on native plant management and development of contingency plans for aquatic invasive species (AIS) management, and conduct activities to prevent the introduction of AIS. The project elements and deliverables are specified in the Town of Townsend's Aquatic Invasive Species Control Grant application, dated January 24, 2006. The project includes conducting point-intercept aquatic plant surveys on Townsend Flowage and McCaslin Brook, following DNR protocols; mapping the distribution and acreage of nuisance aquatic plants; conducting a water quality assessment, including water quality monitoring and determining the Trophic State Index; conducting a watershed assessment, including determining land uses and cover types within the watershed, and identifying potential nutrient and pollutant sources within the watershed; preparing and developing an APM Plan consistent with DNR guidelines, including an AIS prevention and contingency control plan; educating lake users of native plant value, nutrient management, habitat protection, and AIS prevention and control measures; and implementing the "Clean Boats, Clean Waters" watercraft inspection program. Watercraft inspection records will be entered into the State's online Watercraft Inspection Database. The final report will include the Townsend Flowage Aquatic Plant Management Plan that conforms to DNR's Aquatic Plant Management Guidance.</p> <p>If consultant is to provide the final report, it is recommended the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.</p>

TOWN OF WOLF RIVER	Town of Wolf River Page's Slough AIS Control Project	Winnebago	NE	Richard Sachs, 920-662-5187	\$24,616.48	\$24,616.48	<p>The Town of Wolf River, on behalf of the Lake Poygan Sportsmen's Club, proposes to control curly-leaf pondweed (CLP) and Eurasian water-milfoil (EWM) through chemical treatment and preventative measures in Page's Slough during the period 2007 - 2009. The project elements and deliverables are specified in the Town of Wolf River's Aquatic Invasive Species Control Grant Application, dated August 1, 2006. The project includes conducting annual pre-treatment point-intercept aquatic plant surveys and post-treatment surveys to monitor the extent of CLP and EWM and efficacy of the previous year's treatment; treating CLP and EWM infested areas with aquatic herbicides; and conducting education and prevention activities to prevent re-infestation, including placing signage at the carp barrier and nearby boat landings. Annual progress reports and a final report summarizing the three-year project will be provided to DNR.</p> <p>If consultant is to provide the final report, it is recommended that the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR will be provided both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request. If watercraft inspection is conducted as part of the project then those records will be entered into the State's online Watercraft Inspection Database. Any publications produced as part of the project will incorporate the "Stop Aquatic Hitchhikers!" logo brand.</p>
VILLAGE OF PLOVER	Springville APM Plan	Portage	WC	Buzz Sorge, 715-839-3794	\$5,915.00	\$5,915.00	<p>The Village of Plover proposes to create an aquatic plant management plan for Springville Pond in Portage County. Major project elements to include: 1) surveys of milfoil weevils and aquatic macrophytes, 2) meetings and plan development, 3) final report.</p>

WASHBURN COUNTY	Washburn County AIS Infestation Control Project, Purple Loostripe	Washburn	NO	Pamela Toshner, 715-635-4073	\$9,445.63	\$9,445.62	<p>Washburn County Land & Water Conservation will begin the first of a three-year Aquatic Invasive Species Coordinator position. The initial focus of the project will be on purple loosestrife. The project includes five objectives: 1) AIS education; 2) countywide inventory of existing purple loosestrife infestations; 3) GIS map with data points and details of infestation sites; 4) coordination and construction of multiple beetle rearing stations; and 5) purple loosestrife control strategy development. The final goal of the project is to create a limited-term AIS Coordinator position within the LWCD department that is proposed to be funded by future AIS grants.</p> <p>Upon completion of this project, the sponsor will provide the DNR with a report including the following:</p> <ul style="list-style-type: none"> * Summary of AIS education presentations, locations, and audiences. * Summary, including location identification, of beetle rearing stations and releases. * Countywide GIS layer identifying purple loosestrife infestations (GIS-related files are to be submitted to the Department as a deliverable). * Digital aerial imagery collected from pilot surveys. * Purple loosestrife (AIS) tracking sheet that describes sites locations, details, and control progress. * Lake-by-lake inventory of all public landings with inventory of signage. * Detailed and specific management strategy for controlling existing purple loosestrife infestations (year one) and a preliminary plan to prevent the spread of all aquatic AIS. <p>The report will be provided to the Department in both paper and pdf versions . All data and electronic files, including GIS information and digital images, developed as a part of this project should be submitted in electronic, useable files.</p> <p>Special conditions for this project: The project sponsor shall immediately contact proper DNR authorities in the event of a new aquatic invasive species infestation.</p>

WAUSHARA COUNTY	Waushara County AIS Specialist Project	Waushara	NE	Richard Sachs, 920-662-5187	\$55,441.00	\$55,566.00	<p>The Land Conservation Departments from Waushara, Adams and Portage Counties propose to retain a specialist to facilitate the management of aquatic invasive species (AIS) in the three-county area during the period 2006 - 2007. The project elements and deliverables are specified in this group's AIS Control Grant Application, dated 7.31.06, which names Waushara Co as the Applicant. The project includes training county staff & lake volunteers in methods for conducting milfoil weevil population surveys; hosting "Clean Boats, Clean Waters" workshops; hosting "Demonstration Field Day" workshops to exhibit monitoring methods for early detection & AIS control methods; assessing current AIS presence in lakes & identifying priority problem species; providing training on EWM identification & hand-pulling; investigating new AIS sightings & collecting specimens; & assisting lake groups in seeking funding for AIS prevention/control projects. AIS monitoring results will be submitted to DNR's Surface Water Integrated Monitoring System (SWIMS). Quarterly progress reports & a final report summarizing the project will be provided to DNR. Representatives from the Waushara, Adams and Portage Co Land Conservation Depts & their consultant will meet with a DNR project overview team at the initiation of the project to review its implementation strategy.</p> <p>If consultant is to provide the final report, it is recommended that the Grantee provide the DNR AIS Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR will be provided both paper & electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request. If watercraft inspection is conducted as part of the project then those records will be entered into the State's online Watercraft Inspection Database. Any publications produced as part of the project will incorporate the "Stop Aquatic Hitchhikers!" logo brand.</p>

WHITE RIVER LAKE MANAGEMENT DISTRICT	White R. Flowage EWM & CLP Control Project	Waushara	NE	Richard Sachs, 920-662-5187	\$18,618.25	\$18,618.25	<p>The White River Flowage District proposes to control curly-leaf pondweed (CLP) and Eurasian water-milfoil (EWM) through chemical treatment and preventative measures in White River Flowage during the period 2006 - 2008. The project elements and deliverables are specified in White River Flowage District's Aquatic Invasive Species Grant application, dated November 9, 2005. The project includes conducting pre-treatment surveys annually to monitor the extent of CLP and EWM and efficacy of the previous year's treatment; treating CLP and EWM infested areas with aquatic herbicides; and conducting education and prevention activities to prevent further AIS infestations, including placing articles in a local newspaper and conducting watercraft inspections. Watercraft inspection records will be entered into the State's online Watercraft Inspection Database. Annual progress reports and a final report summarizing the three-year project will be provided to DNR.</p> <p>If consultant is to provide the final report, it is recommended the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.</p>
WHITEFISH LAKE CONSERVATION ORGANIZATION, IN	Whitefish Lake AIS Program	Douglas	NO	Pamela Toshner, 715-635-4073	\$5,501.25	\$5,501.25	<p>The Whitefish Lake Conservation Organization proposes to continue a Clean Boat Clean Waters (CBCW) watercraft inspection program and increase Aquatic Invasive Species (AIS) education and outreach in the local area in 2006. The following activities/deliverables will be included in this project:</p> <ol style="list-style-type: none"> 1) CBCW program with youth inspectors (approx. 500 hours) who will collect CBCW data in addition to recreational survey information to be used in the comprehensive lake management plan. The CBCW data will be entered into the statewide database. Recreational survey data will be compiled and used to recommend waterbody regulations to the Town of Wascott. 2) "Adopt-a-shore" program wherein riparians will be trained to identify AIS and inspect their shorelines monthly. Inspection data will be summarized and Adopt-a-shores identified on a lakemap. 3) Two boat landing kiosks will be constructed. Kiosks will include AIS information for recreation enthusiasts on Bond and Whitefish Lake. 4) Digital images will be collected the showcase the above items in addition to the annual Swim & Paddle-a-thon. 5) Any AIS related materials generated or paid for by this grant will be submitted as deliverables. <p>If an AIS is identified, Frank Koshere (715-392-0807) or Pamela Toshner (715-635-4073) should be contacted.</p>
